

Brand & Design System

A warm, calm, neurodiverse-first system for a DET skills app. Modern green, generous space, reduced visual noise — and no red, anywhere. Built for developer handoff.

01 — COLOUR

Colour

Warm neutrals do the rest. There is deliberately no red in the system.

⚠ No red, ever

Red activates alarm response in neurodivergent users. Destructive and urgent UI uses a muted red clay tone instead.

02 — TYPE

Typography

HEADINGS	BODY
Poppins Weights: 400 / 500 / 600 / 700 - geometric, sans, modern. Used for titles, labels and numerals. Letter-spacing: -0.01 to -0.02 on large sizes. Aa Aa Aa Aa	Atkinson Atkinson Hyperlegible - weights: 400 / 700. Chosen for neurotypical readability - high character distinction. Useful for all paragraphs and inputs. The quick brown fox jumps over the lazy dog.
